

DNA Sequencing and Fragment Analysis Services**

Catalog Number	Service Type	Description	Unit	Unit Price*
Seq-01	Standard Full Service	We perform DNA sequencing reactions, electrophoresis and data extraction. Turnaround time is no more than three business days. Free of charge for re runs.	Sample	\$8.00 Per sample
Seq-96	High-Throughput Full Service	We perform DNA sequencing reactions, electrophoresis and data extraction. Turnaround time is no more than three business days. Free of charge for re runs.	Plate (96-well)	\$624.00 Per 96-well plate
Seq-16	Mid-Throughput Full Service	We perform DNA sequencing reactions, electrophoresis and data extraction. Turnaround time is no more than three business days. Free re runs.	Group of 16 samples	\$108.80 Per group of 16-sample
Seq-05	Economy Full Service	We perform DNA sequencing reactions, electrophoresis and data extraction. Turnaround time is up to five business days. Free of charge for re runs.	Sample	\$6.80 Per sample
Run-01	Standard Run-Only Service	Users perform DNA sequencing reactions. We perform electrophoresis and data extraction. Turnaround time is no more than three business days. We will charge \$1.50 per sample for re runs.	Sample	\$2.50 Per sample
Run-96	High-Throughput Run-Only Service	Users perform DNA sequencing reactions. We perform electrophoresis and data extraction. Turnaround time is no more than three business days. We will charge \$1.50 per sample for re runs.	Plate (96-well)	\$163.20 Per 96-well plate
Run-16	Mid-Throughput Run-Only Service	Users perform DNA sequencing reactions. We perform electrophoresis and data extraction. Turnaround time is no more than three business days. We will charge \$1.50 per sample for re runs.	Group of 16 samples	\$28.80 Per group of 16-sample
Run-08	Mid-Throughput Run-Only Service	Users perform DNA sequencing reactions. We perform electrophoresis and data extraction. Turnaround time is no more than three business days. We will charge \$1.50 per sample for re runs.	Group of 8 samples	\$16.00 Per group of 8-sample
Run-05	Economy Run-Only Service	Users perform DNA sequencing reactions. We perform electrophoresis and data extraction. Turnaround time is up to five business days. We will charge \$1.50 per sample for re runs.	Sample	\$1.80 Per sample
Frag-96	High-Throughput Fragment Analysis Run-Only Service	Users perform PCR reactions, clean-up, and data analysis. We perform electrophoresis and data extraction. We will charge \$1.50 per sample for re runs.	Plate (96-well)	\$144.00 Per 96-well plate
Frag-16	Mid-Throughput Fragment Analysis Run-Only Service	Users perform PCR reactions, clean-up, and data analysis. We perform electrophoresis and data extraction. We will charge \$1.50 per sample for re runs.	Group of 16 samples	\$25.60 Per group of 16-sample
Frag-08	Mid-Throughput Fragment Analysis Run-Only Service	Users perform PCR reactions, clean-up, and data analysis. We perform electrophoresis and data extraction. We will charge \$1.50 per sample for re runs.	Group of 8 samples	\$13.60 Per group of 8-sample
Frag-01	Standard Fragment Analysis Run-Only Service	Users perform PCR reactions, clean-up, and data analysis. We perform electrophoresis and data extraction. We will charge \$1.50 per sample for re runs.	Sample	\$2.00 Per sample

*These services and their prices are subject to the fulfillments of sample submission requirements and standards set by the DNA Biotechnology Core Facility. We may deny service orders that fail to meet the required sample standards.
