**Budget Certification Form for Recharge Rates**

The University of Connecticut's Biotechnology/Bioservices Center (BBC) is a multidisciplinary center with a mission to facilitate research productivity in the biological sciences and related disciplines. This is accomplished by providing specialized services and expertise through a number of core facilities. These facilities are operated by faculty experts and supervised by facility scientists who provide consultation and access to state-of-the-art equipment, reagents, and technologies. Facility rates and their effective dates appear below for the *Flow Cytometry and Confocal Microscopy Facility*. They are based on an internal audit of costs, which are reviewed biennially.
