

**Biotechnology/Bioservices Center
Mass Spectrometry Facility
Budget Certification Form for Recharge Rates**

The University of Connecticut's Biotechnology/Bioservices Center (BBC) is a multidisciplinary center with a mission to facilitate research productivity in the biological sciences and related disciplines. This is accomplished by providing specialized services and expertise through a number of core facilities. These facilities are operated by faculty experts and supervised by facility scientists who provide consultation and access to state-of-the-art equipment, reagents, and technologies. Facility rates and their effective dates appear below for the *Mass Spectrometry Facility*. They are based on an internal audit of costs, which are reviewed biennially.

Philip I. Marcus, Director

The *Mass Spectrometry Facility* has been designated a facility within the Biotechnology/Bioservices Center at the University of Connecticut in compliance with the University's Cost Accounting Disclosure Statement. The following budget certification is submitted to:

Agency/Department

Direct costs and internal service center overhead, standardized for a Center such as the BBC, have been included in determining applicable use rates, which serve to recover part of the cost of carrying out the proposed research program.

¹Data processing fee(s): \$5 fee (to be determined by Facility Scientist) will apply to both user generated operations and samples. There will be a \$10 fee (to be determined by Facility Scientist) for any samples resulting from operations by a Facility Scientist.

²Internal user consultation: There is no charge for staff consultations of 30 minutes or less. After 30 minutes consultations will be billed at the rate of \$50 per hour.

³Acceptability of Experimental Infusion samples to be determined by Facility Scientist.

⁴External user consultation: There is no charge for staff consultations of 30 minutes or less. After 30 minutes consultations will be billed at the rate of \$150 per hour.

Note: Internal User is defined as a user of the Mass Spectrometry Facility's services acting in an official capacity on behalf of the University of Connecticut.

Note: These are current rates and are subject to periodic review and change.
